

## TopKayaker.Com - Wilderness Systems Foot Peg Guide

Use this information to identify and replace lost or broken foot braces and foot controls. Please read carefully. Foot brace rails are not addressed on this page. Nearly all the associated rails mount with screws 14 5/8 inches on center. **Part numbers are searchable at [TopKayaker.Com](http://TopKayaker.Com).**

### **"Generic" Foot Peg [CP-1010-1](#) (right)**

Common on WS kayaks circa 2004 and before, rudder or not, both sit in side and sit on top kayak. Adjusts on the rail with a trigger (not easily seen in photo). Generic rails and tracks are also available.

### **Keepers "basic" [9810121](#) (left)**

Common on WS kayaks circa 1990s, with rudder or not. These older WS rudder systems are expected to have Keepers rails fastened to a metal flat bar that slides in a metal or plastic u-track (see below). Common again circa 2005-2015, used mostly on WS kayaks with a rudder, on both sit in and sit on top kayaks. Circa 2009-2015 Keepers are used on WS sit on top kayaks. Keepers Foot Pegs were yellow for a time, circa 2004. Adjusts with a trigger. **[Replace Peg Only](#).**

Alternative part numbers: 9800812, 9810113, 9800165 and 9800991. Padded Foot Pegs part number [8023041](#) are a match to Keepers, of all years, rudder or not.

### **WS foot peg for rudder [3270-0570](#) (right)**

Common on WS kayaks circa 2004-2005, on both sit in and sit on top kayaks, but only those with a rudder. Take note of adjustment strap for rudder foot controls. Right and left sides are the same, as well as the two foot pegs above. **Discontinued Part!** Straps can be easily replaced with 3/4 inch wide web strap products. If peg is lost or broken replace the complete foot controls. Most options are applicable. The Keepers Foot Control Kit for Rudders [CNF-9810073-KIT](#) is suggested. Expect to replace cables too.

### **Slidelock "basic" [8023040](#) (left)**

Common on Wilderness Systems sit in kayaks circa 2005-2015 without a rudder. Slide Lock has right and left sides. Adjusts with a wand. **Discontinued Part!** As needed, replace with a new foot brace kit. Most foot brace kit options are applicable. The Slidelock XL Footbrace Kit [CNF-8023792](#) is suggested.

### **Triggerlock Foot Peg [CNF-3270-0550](#) (right)**

Common on WS kayaks 2005-2008, mostly sit on kayaks with no rudder. Adjusts with a trigger (not seen in photo). **Discontinued Part!** As needed replace with a new foot brace kit, most are applicable, Keepers XL [CNF-8023791](#) is suggested. The Keepers Foot Peg "basic" 9810121 above might slide onto the existing Trigger Lock Rails.

## LATER MODEL WILDERNESS SYSTEMS FOOT PEGS

**Keepers XL [CNF-8023791](#)** (sit-in) and **CNF-9800858** (sit-on) both shown right. Common on late model Wilderness Systems kayaks without a rudder made 2015 to date. Right and Left sides are different. Adjusts with a trigger. A complete replacement kit is not always necessary. Replacement Keepers XL Foot Pads (pegs) [CNF-9800874](#) are sold as match pairs, right and left, that will slide onto existing rails. Replacement Keeper XL Triggers [CNF-9801025](#) are also sold in two packs. If you have a broken rail you will need the complete Keepers XL replacement kit. Other foot brace kit options will be applicable.

### **Slidelock XL [CNF-8023792](#)** (left)

Common on late model Wilderness Systems sit in kayaks made 2015 to date, without a rudder. Right and Left sides are different. Adjusts with a wand. The only option for replacement is a complete Slidelock XL [CNF-8023792](#) kit. Other foot brace kit options will also be applicable.

### **Keepers XL Course Control** (right)

Found on late model Wilderness Systems sit on top kayaks made circa 2015, with a rudder system. Right and Left sides are different. Adjusts with a trigger. **Discontinued Part!** See Course Control replacement note below.

### **Slidelock XL Course Control** (right)

Found on late model Wilderness Systems sit inside kayaks made circa 2015, with a rudder system. Right and Left sides are different. Adjusts with a wand. **Discontinued Part!** The only option for replacement of **both XL and Slide Lock Course Control** is a complete foot control kit. Most foot control options will be applicable. The Keepers Foot

Control Kit for Rudders [CNF-9810073-KIT](#) is suggested. Expect to replace metal control cables or possibly re-use spectra cord.

### **Tandem Foot Peg for Side Rail 9800306** (right)

This variant of the Keepers Foot Peg was common on some Wilderness Systems Pamlico two-man kayaks as well as some Perception tandem kayaks, circa 2011. It mounted on the side bars in the cockpit. It adjusted with a gray latch. **Discontinued Part!** Replace with a complete foot control or foot brace kit as needed. Most options will be applicable. The Keepers Foot Control Kit for Rudders [CNF-9810073-KIT](#) or the Keepers Foot Brace Kit [8023039](#) (no rudder) is suggested.
